INTERNET SERVICE LEVEL

We guarantee that the internet installation is as described below and in the Airbnb listing:

FIBER OPTIC router from MOVISTAR installed in 2021 with 1 giga speed serving 4 apartments, distributed by a UNIFI DreamMachine and **dedicated 250 MB access point for your exclusive use in the apartment, with the possibility to connect to another second dedicated access point next door.**

However, we can not take responsibility for MOVISTAR outages or slow-downs, or electrical outages in the building or neighbourhood that are out of our control. This is a beachfront community with older buildings and occasional electricity outages are possible without warning. This does happen during stormy weather but can occasionally occur at other times.

There is backup, free community wifi in the community plaza 24/7 and community lounge (weekday mornings), it is slower and we don't control this service so we can't guarantee how it functions.

We always recommend that you have a data package on your phone.

We don't guarantee 24 hour immediate assistance for breakdowns that are out of our control. We don't take responsibility for missed income due to an internet outage.

TV

Television (news, local channels) is in SPANISH.

We do not have TV in English or other foreign languages, no satellite or Cable TV.

The smart TV is also connected to the internet. We will provide a NETFLIX account or you can use your own. You can bring your own streaming device to attach to the HDMI port of the TV.

Please learn how to set up your device before you leave home. We are not TV experts, we can try to help, but we can't send a specialist to help you get configured with your streaming or national channels.

PARKING

The community has a gated parking lot with approx 90 spaces for 250 apartments.

There is no dedicated space. Finding a space inside the gates is usually possible but not guaranteed.

If the parking lot is full, you must park your car in the street. We will provide tips for the best place to park. Street parking is free of charge and it is usually easy to find a space nearby, except in summer and especially August.

Please respect the instructions of the parking guard. The guard reserves the right to refuse access for any reason, in this case, please park in the street.

POOL

The community gardens will be open, but the pools will not be open for swimming during your off-season stay.

SAFE

We provide a safe, and you agree to take full responsibility for the usage. In case of the loss of the key, you will need to call a locksmith, pay for a replacement key, and not hold the owner responsible for any consequences such as missed flight due to passports or valuables in the safe.

We do not guarantee to be immediately available for emergencies with the safe, so please take care with using the safe the night before your departure.

MID STAY CLEANING

A mid stay cleaning and maintenance visit, done by our cleaning team, is mandatory and we ask for a contribution to the cost of 50 euros every 14 days. We'll bill you after each cleaning is completed.

They will check that everything in the apartment is working, perform any needed or scheduled maintenance, Hoover and clean the surfaces and bathrooms.

This price does not include linen service, washing dishes, or cleaning a deeply soiled oven or stovetop.

If you would like the cleaners to change the sheets and towels please add an extra 25 euros.

We will agree on a day for the cleaners to come, **but we cannot give an exact time for their visit.** They will come between 10 am and 6pm and the cleaning takes about 2 hours. If you are not home they will enter with their key.

REPAIRS DURING YOUR STAY

If a repair is needed please plan to spend 5 minutes in the apartment on a **VIDEO CALL** with us so we can assist you to fix it. We need to see what you're seeing and understand what you're doing, to fix the problem. 90% of guest issues can be fixed this way.

We can not solve problems by text messaging, we need to speak with you and see what is happening.

Should a small amenity need replacing (such as a toaster, tea kettle etc) we may ask you to purchase it yourself from a local store and we will reimburse you for it, instead of trying to repair it or have the property manager bring a new one over.

If something significant breaks down during a long term stay, we will make our best efforts to repair within several working days.

We can not give an exact time the maintenance people will arrive. You do not have to wait for them, unless you want to. We arrange for them to ring the bell first and enter with their key if you are not home.

OWNER ACCESS DURING YOUR STAY

If you are staying over 2 weeks, we reserve the right to briefly enter the property, every two weeks, after agreeing on a time with you, with workmen or other professionals, for various reasons such as repairs, taking measurements, getting a price quote, performing periodic maintenance etc.

We can tell you the day, but not the time the repairman will arrive at the property. We will tell you the day of the intervention, we'll text you if we can before arrival, and we'll ring the bell before entering with our key.

NEIGHBOURS and COMMUNITY REPAIRS

Neighbours or the community can perform renovation works in the off season. **That risk is reflected in your off-season, low price.** They do **NOT** have to provide prior notice! If disturbing renovation works occur during your stay, we will evaluate the situation and allow for you to cancel the remaining nights for a refund of nights not slept.

If you choose to stay in the apartment despite a breakdown or disturbance, that indicates that the advantages of the apartment outweigh the inconveniences you are experiencing, and any monetary compensation is limited at 20 euros per day.

The **LIFT** is due to be replaced and occasionally needs maintenance. It usually gets fixed quickly. However, there is only one lift, so if you cannot climb stairs, please do not book this apartment.
